

## Environmental policy for Götessons Design Group

For Götessons Design Group, having high ambitions for environmental work is a given and therefor thus taking responsibility for our impact on the environment both locally as well as globally. We intend to give people a better workplace and indoor environment with our products, without causing any negative environmental effects. For us to make the most use, the work and measures should focus on areas where the greatest impact can be achieved.

Götessons Design Group and its companies will:

Protect the environment and prevent it from pollution

Reduce the amount of waste and consumption of energy, materials and resources, water and chemicals

Comply with applicable laws, regulations, and other binding requirements from stakeholders

Carry out a product and business development that are in line with a sustainable development

Manufacture and develop high quality products with a low ecological footprint

Place high environmental demands on suppliers and business partners

Constantly improve our environmental performance, management system and operations

Götessons Design Group are determined to, by working with and in a sustainable way be a part of the great common effort that is required to minimize negative environmental impact and promote a prosperous planet for all its inhabitants.
